## 📁 PROJECTS

**06/2024 – present**

**Torry Harris Marketplace (Digital Product)**
- As part of the **React-based product engineering team**, I develop components and pages for a marketplace platform similar to **Amazon**.
- My responsibilities include **feature implementation, migration tasks**, and working on various portals such as admin, vendor, and storefront. I utilize **ShadCN,Redux and React Qurery** to create modern, responsive interfaces.
- The platform serves multiple user types, including **vendors, customers**, and **store owners,** enabling seamless online transactions.

**01/2024 – 06/2024**

**Learning Management System**
- Creating a LMS application using **microservices architecture** for the **ongoing training professionals** at Torry Harris.
- Built reusable ReactJS components and integrated RESTful APIs to develop a responsive **Admin Dashboard** using **Ant Design**  following best frontend development practices.

**07/2023**

**E-commerce web-app built with React** ⧉
- Successfully developed and deployed a dynamic and **responsive website** using the latest version of **React** and **Strapi**.
- Incorporated features like **Hooks, Context API**, and **Custom APIs** and endpoints to enhance functionality.
